FSB-IOSCO to post public comments on consultation on Assessment Methodology for Identifying NBNI G-SIFIs

The FSB and IOSCO welcome the responses received to the Second Consultative Document on [*Assessment Methodologies for Identifying Non-Bank Non-Insurer Global Systemically Important Financial Institutions*](#) (NBNI G-SIFIs). The public responses to this consultation will be uploaded to their respective websites by Monday 15 June.

The FSB is reviewing the responses jointly with IOSCO and both bodies expect to discuss the findings at their next Plenary and Board meetings.

Meanwhile, the FSB, in coordination with IOSCO, have started work on identifying financial stability risks associated with market liquidity in fixed income markets and asset management activities in the current conjuncture, as well as longer-term structural financial stability issues that may arise. This work will evaluate the role that existing or additional activity-based policy measures could play in mitigating potential risks, and make policy recommendations as necessary. The FSB will discuss the initial findings at its next Plenary meeting in September.
